On behalf of “WAEICON” LLC I am glad to welcome you. Thank you for your interest in our company.

Founded in 2009, “WAEICON” LLC is a competent and rapidly growing construction-trading company, licensed to operate in the Republic of Armenia. The company’s mission is to provide high quality products and services in an appropriate and timely manner, and maintain its leading role in the Armenian market.

From the very first days of the company’s establishment, we employed best specialists of the field, thus achieving highest level of quality and professionalism. Due to ideal business ethics, the company has gained the trust of a number of leading international manufacturers.

By establishing superior company-customer relationship and individual partnerships on mutually beneficial terms, satisfaction and constant growth, “WAEICON” LLC expands and widens its activities. We strive to maintain our reputation, realizing that success is not an entitlement, but something that has to be earned through hard work and commitment.

Our company owes its reliability and effective work to its administrative, architectural and professional teams that comprise leading experts in their fields who have acquired their qualifications in a number of European countries. Thanks to professional expertise and innovative technologies, our company brings to life even most challenging projects.

The strategic methods that we have inherited are:

- *Transparency and accuracy of tasks*
- *Competitiveness*
- *Production effectiveness and Professionalism*
- *Accuracy*

The company uses individual approach to each client and project, providing comprehensive engineering solutions for a wide range of assignments.

Our corporate values, efficacy and reliability form the basis of our actions.

*Hovhannes Cholakhyan,
CEO of “WAEICON” LLC*

Our Priorities

Professionalism

To provide best results, the experienced and progressive specialists of the company continually increase their professional skills and share their knowledge.

Intelligence

Company preserves its productive growth through diversifying risks, making them controllable and predictable.

Highly qualified staff

Professional integrity includes transparency in decision-making processes, consideration of the best interests of the company and its clients, and respectful attitude to colleagues. A principled professional takes responsibility for his work product, his own performance and the performance of the teams he leads.

Customer Oriented Approach

Company tends to build stable and long-term cooperative relations with its clients.

Reputation

Company puts strong accent on its reputation, and therefore highly estimates trust and business ethics.

Extensive technical diversity of service packages

Our employees have the chance to work in a diverse, dynamic atmosphere that thrives on innovation, technical expertise and creative solutions.

Electricity

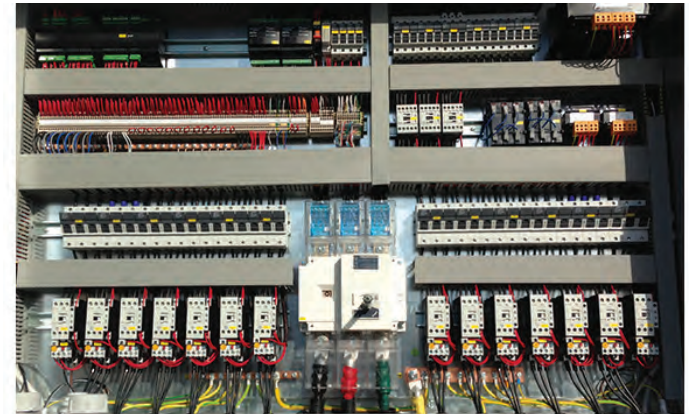

Electrical wiring is a set of works undertaken for an existing project. The process begins with projecting of the wiring, followed by implementation of technical tasks of varying complexities, installation of electrical equipment (produced by leading international manufacturers), and, finally, testing, programming and commissioning of installed networks.

"WAEICON" LLC is a leader in the above-mentioned fields and offers full service of electrical works, including:

- Installation of cable lines
- Installation or repair of distribution lines
- Wiring
- Installation of power switchboards
- Installation of electric power plants for various purposes
- Programming, commissioning of networks and devices

"WAEICON" LLC has all the required licenses to perform these operations.

We carry out the work of very different complexity: from a conceptual project design to installation of "smart house" system.

"WAEICON" LLC

Tel.: +374 10 22 50 00
+374 10 22 80 00

Water & Sewerage

"WAEICON" LLC provides a full range of internal and external water supply for various premises: multi-residential complexes, shopping centers, hotels, vacation homes, factories, industrial premises, private houses, apartments, offices, etc.

Our company can also provide professional services concerning calculation and installation of systems. The design of water supply, sewerage and drainage systems will be based on the planned projects, technical specifications, architectural drawings, in observance of corresponding norms and regulations.

Well-qualified specialists of "WAEICON" LLC select the design scheme, which determines most suitable equipment, carry out installation of the pipelines and make calculations based on the type and location of the local sewerage treatment plants.

Water supply and sewerage services include:

- Import and Installation of pumps and pumping stations
- Installation of pipes and pipe junctions
- Installation of water supply and sewerage units and other necessary equipment
- Hot/cold water supply
- Testing and commissioning
- Hot water supply

"WAEICON" LLC
7th floor, 12 V. Vagharshyan
Str., 0012, Yerevan, RA
Email: info@waelcon.am
Website: www.waelcon.am
Tel.: +374 10 22 50 00
+374 10 22 80 00

Air Conditioning

The most important part of designing air conditioning systems is to calculate the heat flow, both internal (occurring at the expense of the occupants, equipment, lighting, etc.) and external (accounting for solar radiation, outside air temperature).

Our company carries out construction and installation of individual air-conditioning systems for multi-residential complexes, shopping centers, hotels, vacation homes, factories, industrial premises, private houses, offices, apartments, and other facilities.

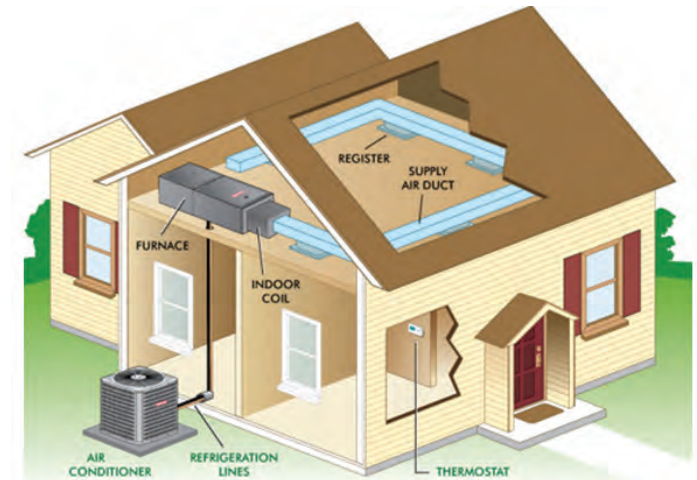

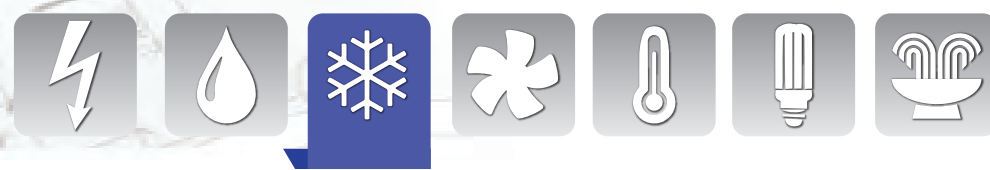

Our team of professionals also provides solutions for specific requirements, determines the type of system that should be used, creates plans and rough drafts.

We offer the following services in the areas listed above:

- Import and installation of chillers
- Import and installation of fancoils
- Import and installation of both residential and industrial air conditioning systems
- Import and installation of dehumidifiers and humidifiers
- Ventilation and air conditioning automation and control systems
- Final commissioning of all air conditioning systems

"Waelcon" LLC

7th floor, 12 V. Vagharshyan Str., 0012, Yerevan, RA
Email: info@waelcon.am
Website: www.waelcon.am
Tel.: +374 10 22 50 00
+374 10 22 80 00

Ventilation

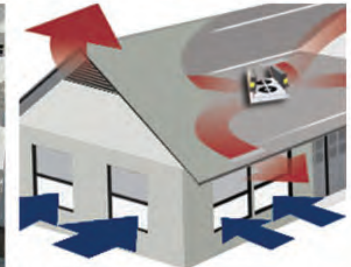

Specialists of our company develop ventilation systems for a variety of buildings, such as, multi-residential complexes, shopping centers, hotels, vacation homes, factories, industrial premises, offices, private houses, etc.

For efficient operation of ventilation systems, an aerodynamic calculation is required, which estimates the rate of total air flow, to determine the cross-section of ducts, pressure loss in ducts, etc. In case of acoustic calculations, sound parameters of the air distribution system are also determined.

Based on these calculations, the final selection of materials, equipment, location of air supply and exhaust systems follows.

We provide the following services in the sphere of ventilation:

- Production and installation of air ducts made of galvanized metal
- Production and installation of mufflers, umbrellas, throttle valves
- Import and installation of intake and exhaust systems
- Import and installation of fans
- Import and installation of heaters and coolers
- Automation of ventilation systems and final commissioning

Heating

Our company provides design and installation of heating facilities of any size and any type of use: multi-residential complexes, shopping centers, hotels, vacation homes, factories, industrial premises, private houses, offices, apartments.

Our professional experience in the field of heating systems allows us to carry out installation works in a short amount of time, providing excellent quality and assuring individual approach to each customer.

"WAEICON" LLC provides the following services:

- Calculation and installation of boiler plants
- Installation of boilers
- Installation of metal pipes and other heating systems
- Installation of heating pipes, batteries and other accessories
- Installation of water heaters
- Installation of meters, filters, and regulatory instruments

Lighting

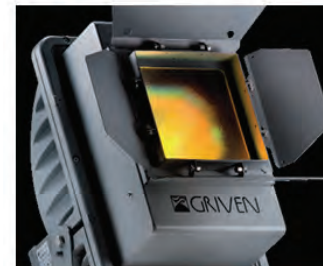

Based on the location of destination of buildings or landscapes, experts at "WAEICON" LLC determine the type, color, shape, design and the amount of lamps and luminaires. Lighting is also regulated in accordance with the required intensity and other characteristic parameters of lighting, depending on the lighted area, to focus the light where it is most needed.

Projecting, design and 3D modeling of internal and external lighting of buildings, using such software as DIALux, Trilux, LightScape, etc, is performed before implementation of works.

With the help of architectural facade lighting, each building can be transformed and modernized. In case of proper lighting, our provided solutions will change the original appearance of the building, delivering a new vision to the architectural structure.

Our company offers the following services in interior/exterior/landscape lighting:

- Projecting, design and 3D modeling by DIALux, Trilux, LightScape, etc
- Import and installation of luminaires, spotlights, lamps and transformers
- Import and installation of lighting columns
- Programming and commissioning

VBW Engineering is one of the most leading companies of Poland in the sphere of production and installation of air conditioning and ventilation systems. Everywhere energy-saving and comfort are of utmost importance. Main goal of the company is to project and produce products according to the accepted international standards.

Was founded in 1995. Due to the high quality design OMS Lighting dictates trends in artificial lighting spectrum. Product range includes lighting equipments for offices, hotels, restaurants, houses and warehouses, hospitals, banks, etc.

Has more than 40 year experience in planning, design and installation of fountain systems and equipments. It offers various fountain components and series of complete fountain systems for residential, commercial and municipal buildings.

Is a family company founded in 1994. Till 2011 the company existed under the business name Technolux. The Company's mission is to offer wide assortment of affordable and decorative lighting fixtures, which are designed for both people who value classic style and those who prefer modern solutions.

The trademark CLINT is owned by Italian company G.I. Industrial Holding S.p.A. - one of the leading European producer of industrial climate and ventilation equipment. Holding's products are delivered in more than 70 countries. CLINT's portfolio includes: chillers, condensing units, rooftop air conditioners, fancoils.

GENERAL - the world-known Japanese brand of air conditioners, under which high technological climate equipment of various types, classes and purposes are manufactured. GENERAL - the sole own climate trademark of Fujitsu General Ltd., which count its history from 30s of the last century.

Brand MDV was created in 1999 on the base of commercial climate equipment division CAC of Midea Group Co., Ltd. It is a professional climate equipment for residential, commercial, social and industrial sectors. MDV embodies experience, ideas and scientific and technical achievements which the manufacturer has accumulated over decades of work.

Precision air conditioners are produced under the trademark MONTAIR (manufacturer - G.I. Industrial Holding S.p.A., Italy) - it is equipment for round-the-clock servicing of objects that need maximal precision in keeping temperature and humidity at constant level: data centers, server farms base stations of cellular communications system etc.

Full range of ventilation units for residential and industrial sectors are produced under the trademark NOVAIR (manufacturer - G.I. Industrial Holding S.p.A., Italy). All products are made of high quality materials and characterized by reliable and easy operation. 30 year experience of the company in creating energy efficient, reliable and high quality ventilation equipment is realized in NOVAIR units.

Founded in 1924, Havells-Sylvania (United Kingdom) is one of the world's major lighting groups. Today, the company continues to build on its exceptional reputation as an innovator and creator of high-efficiency, energy-saving light sources and luminaires by providing full spectrum lighting solutions tailored to your individual and local needs.

The success story of SA-RA takes its origins in 1985. SA-RA is a group of companies, mainly operating in the energy sector, construction and tourism. The high reputation of SA-RA in Turkey and abroad caused by the timely execution of the work, high quality and due diligence. All of this is the result of financial and technical capabilities of the company, experienced and highly qualified personnel.

Founded in 1962, Italian company LEUCOS captivated customers for its uniqueness and originality in the lighting sphere. The main distinction of LEUCOS products is the outstanding design featured with old traditions of Murano glass processing. The reputation of impressive and stylish company has strengthened LEUCOS brand in the world market.

THORN
LIGHTING PEOPLE

Was founded in 1928 by Sir Julius Thorn and is part of Zumtobel group. Today Thorn Lighting company is one of the leading manufacturers of indoor and outdoor lighting equipments and lighting control systems. Its products are used for lighting offices, cultural facilities, interiors and exteriors of shopping malls, roads, landscapes, sports facilities, industrial facilities.

NED
New Engineering Discoveries

Was developed by engineering company OVIK and exists in the Russian market of ventilation systems for over 20 years. Company product range consists of over 7,000 items for ventilation and air conditioning.

formalighting

Forma lighting company was founded in 1967, in Great Britain by initiative of 2 brothers Lorenzo and Guido Maghnagi. Today the company has 3 offices in different parts of the world, covering Europe – Milan, Asia – Hong Kong, USA and Canada – Los Angeles. Founded as a family company, Forma Lighting strives to protect the environment for future generations.

IL FANALE

Il Fanale Group is the initiative of its two promoters Luisa Martin and Fausto Dalla Torre, with the aim to develop production-quality lamps by applying secrets, knowledge and skills of proficient experts of the field. Since its origin, due to the quality and uniqueness of its products the Company has developed distinguishing heritage, by making it known, in the Italian market and abroad.

GRIVEN
world lighting challenge

Was founded in 1990 and is a world leader in the architectural lighting field. Company products are of high quality, reliable and innovative. Due to affiliated companies, theatrical and architectural lighting equipments of Griven are available worldwide.

FläktWoods

Is providing innovative products that make environments safer and healthier. Company product range includes air handling units, intake and exhaust systems, ducts, measurement and regulation devices, chillers, chilled beams, fans, fire dampers and etc.

JAGO

JAGO company was founded in 1990, Italy. Since then it has been one of the leaders company in the sphere of lighting. The products of JAGO company enjoy great demand among consumers in different countries, including those outside Europe.

LTS
LICHT & LEUCHTEN

Was founded in 1985 and is a world leader in the design and manufacturing of technical lighting. Product range covers almost all application spheres from lighting stores up to production facilities, public facilities, offices, etc. Company products for indoor lighting corresponds to international quality standards.

TECLUMEN

Company is specialized in mass production of the most famous Italian and international brands. Experience in the field of lighting allows the company to create its own brand and offers theatrical and architectural lighting equipments under the name Teclumen.

HITEMA
international

HITEMA, an international Italian Company located in Padua close to Venice, one of the most wonderful historical city in Italy. It is a diversified global manufacturing and technology Company which offers a wide range of products and services in the fields of industrial refrigeration: HVAC chillers, climate technologies, air conditioning systems etc.

Citylux

Produces high quality lighting items for interior design. Reliability and experience are the main features of the company. Company suggests unique solutions in interior lighting. Company also produces special and innovative products, already tested by many of most successful companies.

DEKON

DEKON – a large-scale industry and trade integrated company, is one of the leading manufacturers and suppliers of air conditioning products and ventilation systems in China. DEKON strives for better air in your establishment, and aims to supply its products to every corner of the world.

Our Partners

HP Trend s.r.o is a Czech trade and manufacturing company founded in 1997. Currently, HP Trend is one of the largest Czech producers of polypropylene piping systems. Currently, 80% of production is exported to the European Union and Eastern Europe.

The story of Linea Light Group goes back to 1985 when Minulamp, Eva Stampaggi and Linea Light, three acknowledged companies in the lighting sector, merged to create a new reality. Since then Linea Light Group has constantly evolved in response to market changes, anticipating them and focusing on research and collaboration with planners and light designers.

Hammer is a group company established in 2004. Hammer (Hongkong) is the brand and finance holding company. The company produces chillers, air handlings, hygienic air handling, fan coils in factories located in China and supply to China domestic market and export to other countries.

Lena Lighting SA is a leading Polish manufacturer of high quality lighting fixtures, listed since 2005 on the main market of the Warsaw Stock Exchange in Warsaw, Poland. We design, develop and manufacture professional lighting solutions. Our products are present on both the domestic and foreign markets. We are a leading Polish exporter in lighting industry, present at ca. 70 markets worldwide.

ZANGEZUR COPPER MOLYBDENUM COMBINE CJSC

18 Lemagortsoeri, Kajaran 3309, Republic of Armenia, tel / fax: (+374 285) 3 38 70, e-mail: info@zcmc.am, www.zcmc.am

Date: 21.06.2016

Reference

"Zangezur Copper Molybdenum Combine" CJSC want to announce thankfulness to the "WAEICON" LLC team to do great responsibility and large-scale work.

Very important task was assigned to the "WAEICON" LLC. The square of Garegin Nzhdeh was needed to be equipped with modern fountains and the surrounding area would have to be illuminated with energy-saving fixtures.

After a long and extensive work we've got wonderful results. It was considered the second singing fountain in our country, which breathed new life and joy to the main square of Kapan. Of course it should be noted that all works are carried out at a high level and according to the agreed schedule.

Deputy Commercial Director

Davit Isahakyan

"Vallex Garden Hotel" expresses its profound gratitude to entire staff of "WAEICON" LLC, for the professional work and supply products of specialized labor and high quality.

"WAEICON" LLC did the following works in our hotel "Vallex Garden Hotel".

- Projecting, supply and installation of interior, exterior and facade lighting
- Installation of power supply unit of the main and internal nodes
- Projecting of landscape and architectural lighting
- Electrical wiring

It's need to be noted that all brands of used products are distinguished by European standards for quality and durability. The supplied goods have not lost their qualitative and functional features, fully preserving the appearance and smooth operation.

The huge amount of supplied good are from manufacturer "OMS" spol. s r.o., as the production meet to our requirements and design project by technical specifications.

The mounting groups of "WAEICON" company did highly qualified and systematically works on our hotel, for which we give our highest rating.

Director

M. Ghalulyan

Рекомендационное письмо

ООО «ВАЭЛКОН» является нашим партнером в области строительства и инженерии в течение 4 лет.

За это время ООО «ВАЭЛКОН» показала свою способность с полной ответственностью подходить к поставленным задачам, выполнять работы качественно и в срок. Отличительной чертой работы ООО «ВАЭЛКОН» является высокий профессионализм, организованность сотрудников компании и сильный командный дух.

В здании СЗАО «Инго Армения» компания «ВАЭЛКОН» выполнила следующие работы:

- ☐ монтаж основных и внутренних узлов электропитания
- ☐ монтаж внутренней системы канализации и водоснабжения
- ☐ поставка и монтажные работы системы отопления
- ☐ расчет, поставка и строительно-монтажные работы систем вентиляции и кондиционирования
- ☐ поставка осветительного оборудования и монтажные работы

Все работы выполняются вовремя, в строго оговоренные сроки и с надлежащим качеством. Сотрудники компании грамотно справляются со своими обязанностями.

После завершения работы все поставленные продукты до сих пор работают непрерывно и без неполадок, а компания «ВАЭЛКОН» всегда оказывает нужную помощь в процессе инженерных работ.

Рекомендуем ООО «ВАЭЛКОН» как надежного и стабильного делового партнера.

Reference Letter

Eurasia Partnership Foundation (EPF) is pleased to provide this reference letter to "WAEICON" LLC.

Over the past several years, EPF worked with "WAEICON" LLC to furnish the lighting equipment and systems in EPF's new office premises located in Yerevan at 1/21 Azatutyan Avenue, Suite 22 and 23.

We confirm that "WAEICON" LLC supplied lighting fixtures for EPF in full compliance with EPF's special technical requirements and deadlines.

Throughout the implementation of the contracts with EPF, the team of "WAEICON" LLC proved highly knowledgeable, professional and co-operative. Upon completion of the installation of lighting fixtures, the team of "WAEICON" LLC demonstrated a high degree of responsiveness and properly addressed minor technical issues related to the maintenance of the equipment.

We want to note that all the equipment that EPF purchased from "WAEICON" LLC was of the high European quality, including environmental and safety standards and easiness of installation.

With no reservation, we recommend "WAEICON" LLC as a reliable business partner and vendor. While providing goods and services "WAEICON" LLC makes sure that the partners receive value for money.

Please do not hesitate to contact me for further details.

Sincerely,

Vazgen Karapetyan
Associate Director
Eurasia Partnership Foundation

Reviews

To: "Waelcon" LLC
Address: Armenia, Yerevan
12 V. Vagharshyan St
7-th floor

L-077-16
20/06/2016

"Zeppelin Armenia" LLC want to take attention to the company "WAEICON" LLC and the production that they supply to the factory.

"WAEICON" LLC was responsible for the installation and supply of lighting fixtures in the factory and warehouse of "Zeppelin Armenia" LLC.

The lighting design was implemented with the luminaires of "OMS" spol. s.r.o., in all areas of the factory. Want to note that the products is qualified from the EU standards, the installation procedures took less time and effort, the warranty commitments were done in time.

The numerous glowing testimonies by companies currently benefiting from the product, and the abundance of positive references and reviews, lead me to view the product as well-tested, legitimate, and of high quality.

The production offers a number of supplementary capabilities that could prove useful down the road. Therefore, considering the information, "Zeppelin Armenia" LLC highly recommend the production of "OMS" spol. s.r.o.

We want to ensure that all these equipment can't be implemented without our durable partner "WAEICON" LLC. We have worked with the team of "WAEICON", since our group started construction of "Zeppelin" factory. The work process shows their professionalism in the field of engineering and lighting by suggesting various solutions.

Sincerely,

Mario Meier
General Director

To Whom It May Concern

Dear Sir/Madame,

We would like to thank the team "WAEICON" LLC for providing exceptional service to Boghossian Gardens Foundation. Your personal commitment to making our Lovers' Park Yerevan a success continuously exceeds our expectations. Year after year, our team has learned to depend on the flexibility of the system of "WAEICON", the ease of set-up and functionality as well as your dedication to Boghossian Gardens as a client.

You have become a trusted resource and partner from the moment you began working with us in 2013. Your enthusiasm for the products and dedication to providing Lover's Park with timely and efficient solutions made the decision to choose "WAEICON" LLC.

The key factors for choosing to work with your company were your in-depth product knowledge, dedication to our needs and requirements, as well as your ability to supply Lover's Park Yerevan with an innovative lighting design solution within the means of our budget. Throughout the years we have learned to appreciate the high levels on service you repeatedly provide. Such as lighting equipment supply for our other projects.

Yours Respectfully,

Sarhat Petrosyan

Reference letter

"Coca-Cola Hellenic Bottling Company Armenia" CJSC write this reference letter to tell gratitude to "WAEICON" LLC that acted as a general engineering company while executing the project: supply and installation of heating, ventilation and air conditioning system in the plant of "Coca-Cola Hellenic Bottling Company Armenia" CJSC.

The construction was carried out under the conditions of the operating plant. All works were completed within the contractual terms and of the required quality. Special attention was paid to compliance with project planning requirements.

During the project "WAEICON" LLC approved itself as a reliable business partner. The mounting team of the company completed their tasks at a top professional level and dealt with critical issues requiring instant intervention.

"Coca-Cola Hellenic Bottling Company Armenia" CJSC thanks "WAEICON" LLC for the works performed and is looking forward to the further cooperation.

Reference Letter

To Whom it May Concern:

On behalf of "Republica" LLC acting as Republica Hotel Yerevan I am happy to express our gratitude and provide this reference letter to "WAEICON" LLC who has been one of our very valued partners for the past years. They are accredited in the line of their activities and it is our pleasure to recommend them as a company to do business with.

One of the projects that we worked on showed that the Company strongly cares about the quality and is attentive to all the details. During the construction of Republica Hotel Yerevan we tightly cooperated with "WAEICON" LLC. The Company did projecting, supply and installation of facade and interior lighting equipment, calculation, supply and installation of heating and ventilation and air conditioning systems, installation of internal sewerage and water supply system as well as electrical wiring.

I would also mention their competitive pricing. The proposal done by them was compared to other companies' offers. We were pleased with the knowledge and creativity of the Company, which made quite impressive difference and made them the best option to choose.

Having already quite extensive experience in cooperating with "WAEICON" LLC, we fill very confident in recommending them as a great partner as well as a caring and active participant in this community. We will definitely choose them as our partner in our future projects.

Best regards,
Inna Khostikyan

ԱԿՎԱՏՈՒՍ ՍՊԸ
AQUATUS Co., LTD

ՔԿ ԻնՎեստ 2016 թ.
N 156

Please accept this letter as professional endorsement of "WAEELCON" LLC as an outstanding business partner to "Aquatus" LLC as they were responsible for projecting of interior lighting, supply and installation of lighting equipment.

Since our earliest involvement with "WAEELCON" LLC, I have found their company to be world class in many ways. Their representation of "OMS", spol.s.r.o products to our shopping mall has always been fair, courteous and above all, professional in every respect.

We've successfully worked with them for over 4 years. There are not many companies that we have that solid of a relationship with and it's due to the integrity of everyone and we are happy to recommend them for the Green urban lighting tender.

Երաշխավորագիր

Մայր Աթոռ Սուրբ Էջմիածնի ճարտարապետական բաժինը իր երաշխագիտություն է հայտնում «ՎԱԵԼԿՈՆ» ՍՊԸ-ի անձնակազմին՝ մասնագիտացված աշխատանքի, ճշգրիտ հաշվարկների և բարձր որակական հատկանիշներով համալրված ապրանքատեսակների մոնտաժման համար:

«ՎԱԵԼԿՈՆ» ՍՊԸ-ն Մայր Աթոռ Սուրբ Էջմիածնի տպարանում իրականացրել է օդրակման և օդափոխության ռեկուպերացիոն համակարգի, կենտրոնացված սառնամանակարարման, օդորակման համակարգի հաշվարկ և մոնտաժում:

Հարկ է նշել նաև այն հանգամանքը, որ «ՎԱԵԼԿՈՆ» ընկերության պրոֆեսիոնալիզմի և համակարգվածության շնորհիվ, աշխատանքներն ավարտվեցին երկու կողմերի միջև ձեռք բերված, պայմանագրով հաստատված ժամկետների համաձայն:

«ՎԱԵԼԿՈՆ» ՍՊԸ-ի մոնտաժային խմբերի մասնագետների կողմից իրականացված որակյալ և նորմատիվային պահանջներին համապատասխանող աշխատանքների համար տալիս ենք մեր բարձր գնահատականը:

Հարգանքով՝ Ա.Ասատրյան

"Waelcon" LLC is our distributor in Republic of Armenia. It's immense pleasure for G.I. Industrial Holding to have such a professional and reliable partner. There were many serious and successful projects in which Clint air-conditioning systems were used. From the very first days of cooperation we saw the professionalism of both administrative staff, engineers and technicians. During the cooperation "Waelcon" company proved its business values and reliability which are the keys for the successful partnership. G.I. Industrial Holding is glad to have such partner and hopes for growth of cooperation.

CASALOLDO 12/11/2012

For business development and success it is very important to have reliable and professional partners all over the world. We can surely assure that "Waelcon" company is one of our reliable and prominent partners. Our partnership with the company has already resulted many successful projects in which Teclumen lighting fixtures were used. From the very first days "Waelcon" LLC recommended itself as a promising company that puts its business principles in the first place. We are quite sure that our productive cooperation will last for many years and the more massive and successful projects are to come.
